Re: Deficient Small Mine Notice, Permit Fee Due, Interstate Brick Company, Manning Canyon Project, S/049/036, Utah County, Utah

Dear Mr. North:

On June 9, 2000, we received your Notice of Intention to Commence Small Mining Operations for the Manning Canyon small mining project. The proposed project is to be located in the SE1/4 of Section 22 and the SW1/4 of Section 23, T6S, R3W, Utah County, Utah. This project is located on Bureau of Land Management (BLM) managed lands; therefore, the BLM will be considered the "lead agency" for this project, file number U-77014. We have been advised that you also supplied a notice to the BLM.

This project location was formerly permitted under the exploration project file - Wells Canyon / Manning 1-3, file number E/049/042. You requested that the exploration file remain open. Therefore, Sections 22 and 23 were removed from the exploration file, *leaving only the SW1/4 of Section 27 for the Wells Canyon portion of that exploration file*. If you wish to do exploration outside the SW1/4 of Section 27, you will need to submit an amendment to the exploration notice before creating any disturbance.

The information in the small mine notice for the Manning Canyon mine is complete; however, **payment of the appropriate permit fee is required before this notice can be considered to be in effect under the Division regulations and prior to creating surface disturbance.** You verbally informed us that you would supply the permit fee before this time. **Please furnish the permit fee by August 1, 2000, or this file for Manning Canyon will be closed and you will have to re-submit a new notice, pay the Division permit fee, and receive written approval before any mining can commence at the Manning Canyon site.**

In reply, please reference our file number S/049/036 regarding this site. If you have any questions regarding this letter, please contact me at (801) 538-5310.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
